Michigan professional
association for
Firm Administrators

Michigan

Association for Accounting
Administration

The Michigan Chapter of the Association for Accounting Administration (MAAA) was formed in 1992 with ten charter members whose mission was to communicate and provide each other the benefits of their experience in an emerging profession. Over the years it has developed into a unit of professionals who are comfortable calling or e-mailing one another with questions or solutions to issues that arise in this ever-changing business environment.

Centralized monthly meetings allow for roundtable discussions about issues affecting us and/or our firms, luncheon speakers on topics such as sexual harassment policies, saving money on office equipment, strategic alliances to generate additional revenue for our firms, the latest and greatest technology for the best prices, malpractice insurance, health insurance and how you can manage the huge increases, after tax season party ideas, employee morale issues, and much, much more!

Many firm administrators in our association have been guest speakers at our AAA national and state society conferences on firm-related matters, served on committees, authored articles bringing year's of experience to each venue.

Whether your title is Firm Administrator, Chief Operating Officer, HR Director, or Office Manager, MAAA represents the broad array of professional individuals capable to run the business affairs of an accounting practice.

TODAY, Firm Administrators are being challenged to increase their leadership role, which is all the more reason for you to become a member of MAAA, TODAY.

Your MAAA Enrollment Form awaits you on the reverse side of this brochure.
